# Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I began tutoring Chemistry in 2008 while pursuing my PhD and have since worked with students from diverse academic backgrounds. Over the past 15 years, I have helped AP Chemistry students grasp complex topics like thermodynamics, kinetics, and molecular structures, enabling them to achieve top scores.

In addition to AP, I have extensive experience teaching IB Chemistry at both SL and HL levels, and A-Level Chemistry, focusing on advanced areas like equilibrium and organic synthesis. My teaching extends to undergraduate courses, supporting students in mastering concepts fundamental to their academic success.
