🎓 Experienced Tutor | University of Barcelona | MSc in Physics

My passion for physics, combined with an MSc in Physics from the University of Barcelona and a BSc in Engineering Physics from the Autonomous University of Madrid, has guided my 16 years of teaching AP Physics, where I help students excel in challenging areas across multiple curriculums.

Qualifications

University of Barcelona: MSc in Physics (2005–2007)

Autonomous University of Madrid: BSc in Engineering Physics (2001–2005)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over my 16 years as a tutor, I've guided students through AP and A-Level Physics, helping them understand advanced concepts in mechanics, electromagnetism, and thermodynamics. My teaching experience spans international students from Europe to Asia, each with unique academic backgrounds, enabling me to adapt to diverse learning needs.

In addition to AP and A-Level, I've supported students preparing for IGCSE and GCSE Physics, fostering a solid understanding of fundamental physics principles that serve as a foundation for advanced studies. My extensive experience ensures that students receive the comprehensive guidance they need to tackle exams with confidence.

Beyond exam preparation, I've also mentored students aiming to study physics at university. Many have successfully transitioned to top institutions, reflecting the depth of knowledge and support provided throughout their academic journeys.
