Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With a deep-rooted passion for history, I've been tutoring AP US History and A-Level History students for over 14 years. I focus on helping students develop strong analytical skills and understand the significance of historical events, especially in the context of American history. My experience in tutoring extends across various curriculums, providing students with a well-rounded understanding of historical narratives.

In addition to AP and A-Level, I've supported students preparing for GCSE and IGCSE History, covering topics such as world history and European history. My expertise in historical analysis and research provides students with the foundation they need to succeed in their exams and coursework. Many of my students have gone on to pursue history and related subjects at university, reflecting the impact of my support.

Outside of formal tutoring, I conduct historical research and publish articles on American history, allowing me to bring current academic insights into my teaching. This depth of knowledge helps students engage with the material on a deeper level, preparing them not only for exams but also for a lifelong interest in history.
