🎓 **Qualified Tutor | University of Toronto | MSc in Theoretical Physics**

With 8 years of experience, I specialise in IB Physics HL/SL, AP Physics 1 and C, and A-Level Physics. I hold an MSc in Theoretical Physics from the University of Toronto and a BSc in Physics from McGill University, and I've helped students excel in exams and secure placements at leading universities.

Teaches:

AP Physics

IB Physics

A-Level Physics

IGCSE Physics

Curriculum:

AP

IB

A-Level

IGCSE

Qualifications

University of Toronto: MSc in Theoretical Physics
(2014–2016)

McGill University: BSc in Physics (2010–2014)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

I started my tutoring career in 2015, focusing on helping students excel in AP Physics 1 and C, as well as IB Physics HL/SL. Over the years, I've worked with students from diverse academic backgrounds, ensuring they grasp foundational concepts and achieve exam success. Many of my students have gone on to pursue engineering and science at top universities.

In addition to AP and IB Physics, I have supported A-Level and GCSE students in mastering complex topics like mechanics, thermodynamics, and electromagnetism. My expertise in advanced physics topics has been instrumental in helping students tackle challenging exam questions with confidence.

I've collaborated with international schools and private academies, offering tailored guidance to students aiming for high scores in competitive exams. My years of experience include mentoring students in Canada and abroad, helping them navigate advanced curricula and prepare for academic success in physics and beyond.
