## Qualifications

**London School of Economics:** MSc in Statistics (2018-2020)

**King's College London:** BSc in Mathematics (2014-2017)

## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

With five years of experience, I've supported students in mastering AP Statistics, as well as A-Level and GCSE Maths. I work closely with each student to tackle complex topics like probability, regression, and hypothesis testing, ensuring they excel in their studies and exams. My students benefit from a comprehensive approach to statistics that prepares them for university-level coursework.

Additionally, I've developed numerous resources tailored to AP Statistics, allowing students to engage deeply with the subject. My approach has consistently helped students achieve top scores, and many have successfully moved on to prestigious universities with a strong foundation in mathematics and statistics.
