🎓 Experienced Tutor | University of Tokyo | MSc in Molecular Biology

I completed an MSc in Molecular Biology at the University of Tokyo and a BSc in Biological Sciences at Kyoto University. With 14 years of tutoring experience, I specialise in AP Biology, IB Biology, and A-Level Chemistry, helping students excel academically and secure places at top universities.

Teaches: AP Biology IB Biology A-Level Biology

Curriculum: AP IB A-Level

## Qualifications

**University of Tokyo:** MSc in Molecular Biology (2007–2009)

**Kyoto University:** BSc in Biological Sciences (2003–2007)

Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I have 14 years of experience tutoring students in AP Biology, IB Biology (SL and HL), and A-Level Chemistry. My work has focused on helping students grasp advanced topics in genetics, molecular biology, and systematics. My students have consistently achieved outstanding results, including perfect AP scores and IB 7s.

In addition to school-level support, I've worked extensively with university students tackling complex topics like biochemistry, biostatistics, and plant physiology. I've also mentored learners on Extended Essays and lab-based projects, ensuring they meet the highest academic standards in their studies.
