🎓 AP Tutor | Tsinghua University | MSc in Applied Mathematics

With an MSc in Applied Mathematics from Tsinghua University and a BSc in Mathematics from Peking University, I have six years of experience tutoring students in AP Calculus, IB Mathematics, and A-Level Maths. I excel in teaching advanced concepts such as derivatives, integration, and differential equations.

Teaches: AP Calculus IB Maths A-Level Maths

Curriculum: AP IB A-Level

Qualifications

Tsinghua University: MSc in Applied Mathematics (2014-2016)

Peking University: BSc in Mathematics (2010-2014)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the last six years, I've worked with students preparing for AP Calculus exams and international curriculums such as IB and A-Level Mathematics. My expertise lies in guiding learners through foundational calculus topics like limits and integrals, while also supporting advanced problem-solving skills for exams and coursework.

I've had the privilege of working with students from diverse educational systems, including those from Europe, Asia, and the Americas. My role has involved tailoring lessons to individual student needs, ensuring they are well-prepared for both academic assessments and university admissions in top global institutions.
